

Herman Bantjes

Third-Year Software Development Student

Pretoria, Gauteng | 060 813 4459

hermanbantjes04@gmail.com | github.com/Hakumen1011

Driver's Licence: Code B | Own reliable vehicle

PROFILE

Third-year Bachelor of Computing (BComp) student at Belgium Campus iTversity who builds full-stack web applications, REST APIs and data-driven systems. Works across the stack, from ASP.NET Core and Express.js back ends to PostgreSQL and MongoDB databases, and uses Docker to containerise and deploy applications. Seeking a software development internship, which forms part of the final year of the BComp degree, to contribute to a real codebase and learn from an experienced team.

TECHNICAL SKILLS

Languages	C#, Java, JavaScript, Python, SQL, HTML, CSS
Back end & web	ASP.NET Core, Entity Framework Core, Node.js, Express.js, RESTful APIs, MVC architecture
Databases	PostgreSQL, MongoDB
Data & ML	Python, Dash, Plotly, Jupyter Notebook
DevOps & tools	Docker, Git, GitHub, Visual Studio, Visual Studio Code

PROJECTS

Academic and personal projects, including full-stack web applications, REST APIs and machine learning dashboards, are available on GitHub: github.com/Hakumen1011

EXPERIENCE

Stock Management Assistant Jan – Mar 2026, Jul 2026
Seal Centre

- Managed inventory and kept stock records accurate and up to date.
- Supported day-to-day warehouse operations, helping stock stay organised and easy to locate.
- Worked with a high level of accuracy and attention to detail in a busy business environment.
- Asked back by the employer in July 2026 to help again for the rest of the month.

EDUCATION

Bachelor of Computing (BComp), NQF Level 8 Expected completion: 2027
Belgium Campus iTversity, Pretoria

- 3rd year of a four-year degree in software development, programming, databases and mathematics.
- Hands-on project work in C#, Java, JavaScript and Python, including team-based development.
- Final year includes a required industry internship.

National Senior Certificate (Grade 12)

Hoërskool Overkruin, Pretoria

- Subjects: Mathematics, Physical Sciences, Information Technology, Engineering Graphics & Design, English, Afrikaans.
